CONSTRUCTION MANAGEMENT

We offer construction administration, management, inspection and observation services. Our highly qualified team consists of construction managers, resident engineers, inspectors, surveyors and support staff with extensive experience in roadway rehabilitation, grade separations, utilities, pipelines, commercial and industrial development and public works. Our construction services include:

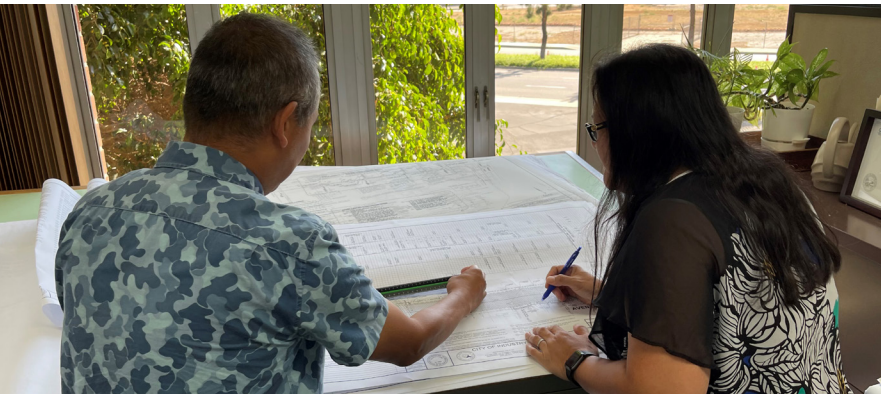

- Construction Administration
- Observation & Inspection
- Construction Management
- Contract Funding & Administration
- Permit Inspections
- Design Support
- As-Built Drawings
- Bidding Support Services

GEOGRAPHIC INFORMATION SYSTEM (GIS)

Creating, managing and presenting GIS data is an essential asset in today's world. We provide clients with expert knowledge and creativity to manage, analyze and present a wide variety of data.

- Data Management
- Database Design
- Address Data Management
- Asset Data Collection
- Inspections
- Analysis and Mapping
- City Services (Permit Tracking, Code Violations, etc.)
- Transportation
- Urban Planning
- Engineering and Construction
- Water Resources

“CELEBRATING OVER 35 YEARS OF PROFESSIONAL EXCELLENCE.”

Walnut South Street Widening & Storm Drain, City of Industry

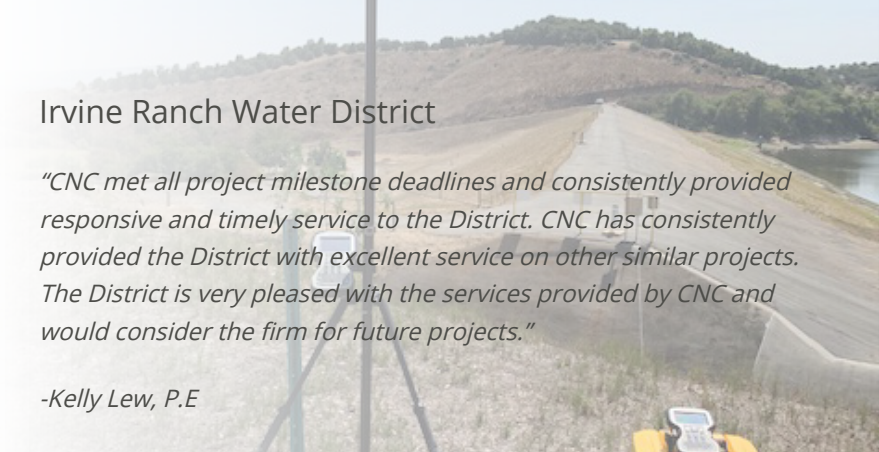

Capistrano Villa Street Pavement Rehabilitation, City of San Juan Capistrano

GIS Modeling of Grand Crossing, City of Industry

Industry Business Center, City of Industry

Irvine Ranch Water District

"CNC met all project milestone deadlines and consistently provided responsive and timely service to the District. CNC has consistently provided the District with excellent service on other similar projects. The District is very pleased with the services provided by CNC and would consider the firm for future projects."

-Kelly Lew, P.E
